- November 8th: NO SCHOOL FOR STUDENTS
- November 10th BLOOD DRIVE
- November 15th Midterms
- SOCKSGIVING SOCK DRIVE HORNET TIME COMPETITION THE ENTIRE MONTH OF NOVEMBER
- Thanksgiving Break: 11/23-11/25

NOVEMBER

MHS Student Leaders *National Honor Society Induction*

BY: JACKSON REDDING

National Honor Society induction was on Sunday, October 22nd. Juniors and Seniors with above a 3.5 GPA were sent an invitation giving them the opportunity to apply for NHS. Only a total of 34 juniors and seniors were accepted. To be inducted students have to exhibit the four pillars of NHS which are scholarship, leadership, character and service. NHS is a club that volunteers to serve the community and strive to do their best in academics. At induction the 34 new inductees crossed the stage after getting their name called and they received a certificate, a pin, and signed the NHS book. The NHS book has been around for many generations and contains years worth of National Honor Society inductees, including some current Monroe teachers. Then each of the five officers, Brady Haegan, Anna Ross, Megan Nerderman, Avree Long, and Lindsey Bevak, gave a speech about one of the NHS pillars and the new members were welcomed. Congratulations to this group of juniors and seniors on their success.

Anthony Munoz Leadership Conference

BY: FRANKLIN VELASQUEZ VENTURA

On Wednesday, October 19th, 2022 at Crossroads Mason the Anthony Munoz Youth Leadership Seminar took place for a day of leadership development. Monroe students were invited to participate in it as well as multiple other schools. Monroe students were nominated by coaches and/or staff members and represented our school well. A rapper known as K Drama came in to perform for the students. There were also many speakers and breakout sessions that gave our

students from Monroe an opportunity to engage with other student leaders from across the Cincinnati/Kentucky area. The theme for the student seminar was (un)written and gave students the time to reflect on the story they are writing for themselves and the leaders that they want to be in their own schools and communities. It provided them with encouragement and resources to write the very best stories for their own life.

College & Career Field Trips

BY: PAYTON SAYLOR

In October and November, we as a community learn to understand the new challenges that manufacturing and healthcare companies have to face now with fewer workers and how that can affect the entire country, which is why Mrs. Turvey uses a partnership with the Middletown, Monroe, and Trenton Chamber of Commerce to allow Monroe students in the Career and College Readiness class to see more jobs firsthand. In October, the students went on manufacturing tours to Magellan Aerospace and Cleveland Cliffs. In early November, students take trips to Atrium Medical Center and Mount Pleasant. Both to help students see in person the way these jobs are. This partnership helps because it allows the students to decide whether they want to go into these fields. When a student decides they do not want to go into these careers, it allows them to use their money, resources, and time to get into what they want. After Covid, all healthcare and manufacturing companies took a significant hit. They need employees, so exposing younger adults and older teenagers to these jobs cannot only help fill some of those positions but it can also help students make decisions. Just this past August there were 795,000 Manufacturing jobs open according to www.nam.org and by 2030 4 million jobs in manufacturing are projected to be needed. Now more than ever digital healthcare positions are required. After Covid telehealth appointments were 38x more used than before. The healthcare industry is also projected to grow 15.1 percent by the end of 2028 which is around 19,406 more open jobs than we currently have in the healthcare system.

GIVE THANKS GIVE BLOOD

Join MHS Student
Council
FOR A BLOOD DRIVE

THE 10TH OF NOVEMBER | 8AM-1PM
THE MJHS GYM WITH COMMUNITY BLOOD
CENTER
SIGN UP OUTSIDE OF E106

EVERY DONOR WILL BE GIVEN 1 TICKET
AND WE WILL BE GIVING AWAY 3
AMAZON GIFT CARDS (1 \$50 & 2 \$25)

Creative Fall Play Corner: Cast & Crew

THRIVE IN THE HIVE Environmental Club

BY: SARAH PERKINS

The Monroe Environmental Club started a new, exciting fundraiser last week! The fundraiser is called Jukebox Fridays and it is to help fund the activities, field trips, and supplies for the club. Every Friday, a student volunteer from the club will take 1 dollar per song suggestion and the song will be played over the speakers at lunch. Students can also win a prize for their contributions! This will event started Friday October 28th and will continue every Friday this year. Make sure to come play a song and support the Monroe Environmental Club while also listening to your favorite song!

THE MONROE ENVIRONMENTAL
CLUB PRESENTS...

JUKEBOX FRIDAYS

- PAY \$1.00 PER SONG SUGGESTION
- MAKE SURE ALL SONGS ARE SCHOOL APPROPRIATE
- MUSIC WILL BE PLAYED DURING LUNCH

SHOUT OUT TO AJ FULLAM OF 6S PHOTOGRAPHY FOR CONSTANTLY CAPTURING MEMORIES FOR OUR STUDENTS! FOLLOW HIM ON FACEBOOK, INSTAGRAM, AND TWITTER!

PHYSICS CLASS: Mouse Trap Cars

BY: SARAH PERKINS

Recently in Mr. Boyer's physics classes, students worked on their first quarter project: building mousetrap cars. The cars must be made out of household materials, the wheels should be attached via two or more axles, the power of the car must come from the mousetrap, and the car must go in a straight line for 25 feet or more to receive full credit.

Students, who work in pairs, also must submit a 10 minute video of the building process. Many students used rulers, cardboard, and wood for their bases, CD's for their wheels, and skewers for axles, getting inspiration from online tutorials and can win bonus points for special awards like the best looking car, the car that went the farthest, the fastest car, and the best built car. The race was on Friday, at the tennis courts. The 2nd period contest winners include Hilary Dunbar and Farida Muhammed for prettiest car, Caden Griffith and Andrew Salyer for best built car, Arif Alloo for the farthest traveling car, and Jacob Muncy and Colton Turner for fastest car. The 7th period winners include Sarah Perkins and Maria McGuire for prettiest car, Peyton Hargraves and Alex Santoro for best built car, Taylour Thomas and Brad Russel for farthest car, and Patrick Peterson and Kai Atkins for fastest car.

Alumni Spotlight: Blake Leonard

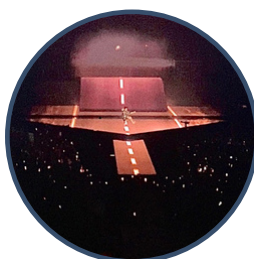

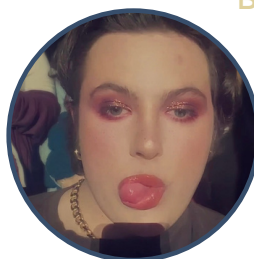

BY: DYLAN GUBA & JACK GILLHAM

Blake Lenard, graduated from Monroe in 2022 and has been working for Ohio Living Mt Pleasant for a couple of years, both as a MHS/CBIP student and after graduation. Blake has worked as a cook and recently had a signing day for Culinary Arts at Sinclair. It is the first time that an employer has sponsored a student in the culinary program. He was joined by his family, his Sinclair counselor, his culinary professors, and his current Mt. Pleasant employers and board members at his signing. His parents and family are very proud of his accomplishments and we are Monroe are excited to see where this journey takes him.

HORNET STORIES: Payton Saylor

BY: PATRICK PETERSON

Everyone has that one person that they that they love so much it's an obsession, whether that be family, friends, or Billie Eilish. In Payton Saylor's case, he loves Billie. He is her biggest fan in the school. If you think otherwise then take it up with Payton. He found out about her in 2016 when she posted dance videos. Freshman year, Payton relied on Billie's music to get through the day, and she helped him out of a really dark time. He has been a fan ever since. This last March he finally had the opportunity to go to one of her concerts and it was the best night of his life. Payton's favorite song is "Lost Cause" because he relates to it personally and it just has a really great vibe. Are you convinced yet that he's the biggest fan? If not...when I say Payton loves Billie, I'm talking about him crying tears of joy when he heard Billie's new album. He has a ton of merch: perfume, posters,

tshirts, vinyl, and more. There is nothing Payton wouldn't do to be able to meet her one on one. He has even said he would be willing to use all of his money just to meet her. Payton Saylor has a lot of defining attributes: his fashion, committed friendships, love of drama (ha), and more, but his affection for Billie Eilish might be at the very top of the list!

SPORTS: Competition Cheer is Nationals Bound

BY: DYLAN GUBA & JACK GILLHAM

Recently the Monroe Hornets Cheer Squad competed in the Edgewood Cheer Competition. They finished second overall after a near perfect routine. Each high school squad competed very well. One of the highlights mentioned in the competition was that senior Aspen Clements won the tuck-off. The Hornets lost to Fairborn. Then, last weekend the Hornets competed again this time with the hopes of qualifying for cheer nationals in Orlando, Florida. There were a lot of nerves and emotions after their qualifying performance, but they did it! The UCA national tournament will take place in February of 2023. Hornet Country is very proud of our competition cheerleaders Coach Shannon! Congratulations girls!
